

This form is to be used in conjunction with a rule review when ancillary documents are also being reviewed as part of the review process.

Ancillary documents are interpretive or policy statements that advise the public of the Department's opinions, approaches, or likely course of action. They include documents such as Excise Tax Advisories (ETAs), Property Tax Bulletins (PTBs), and Revenue Policy Memorandums (RPMs). Ancillary documents do not have the "force of law" that a rule is given under the Administrative Procedures Act (Chapter 34.05 RCW). Court decisions, Board of Tax Appeals decisions (BTA), and Washington Tax Decisions (WTDs) **are not** ancillary documents.

Briefly explain your recommendation:

WAC 458-20-193(7)(c) provides examples of activities that establish nexus. WAC 458-20-193 does not specifically identify sales solicited by an employee salesperson of a wholly owned subsidiary as activities that establish nexus for the parent corporation. However, the current language of subsection (7)(c)(iii) is broad enough so as to encompass the activity.
